TET Trade Delegation to UNITED KINGDOM

B2B Meetings

Birmingham | June 17th, 2025

Participant Catalogue

White Goods 

Electronics 

Cables 

Electricity Production and
Distribution Equipments 

ELECTRICAL AND ELECTRONICS
EXPORTERS' ASSOCIATION

**ELECTRICAL AND ELECTRONICS
EXPORTERS' ASSOCIATION**

Technological Advantages

- Efficient and up to date equipment capacity
- Production flexibility
- Production capacity in international standards
- Strong industrial structure
- Product diversity
- Well trained and experienced work force

Geographical Advantages

- Short time of delivery
- Neighboring the largest markets in the world
- Largely suitable for both land and marine transportation
- Well developed logistics network

Market Advantages

- An appealing conjuncture for both foreign and domestic capital investments
- EU Customs Union Membership
- Increased competitiveness in international markets
- New employment opportunities
- Start-up friendly legal arrangements
- Increased domestic market demand

ABOUT TET

Turkish Electro Technology Exporters' Association (TET) is a semi-governmental agency which promotes trade activities of its members. It was founded on 1991 and it is subjected to Ministry of Trade.

We, as TET, are working for our 7.000 active member companies in order to improve trade volume and cooperation opportunities of electrical and electronics industries.

ACTIVITIES OF TET

CO-OPERATION

Developing co-operations with international institutions

FAIRS

Organizing and participating in trade fairs

DELEGATIONS

Arranging "Trade Delegations" & Organizing "Buying Missions"

MONITORING & REPORTING

Monitoring and providing sectoral data, reports and market research analysis

Türkiye

ABOUT US

BEMİS Electric was established in 1994 in Bursa, one of Turkey's leading industrial city. Founded to produce industrial electrical materials, Bemis; It started its production by producing 3 types of flat-type three-phase plug sockets and became the pioneer of the sector in a short time. Bemis, Bursa Organized Industrial Zone, 11 thousand square meters of closed area with modern production facility; It produces 6 thousand types of industrial electrical materials with 100% domestic production. Having ISO 9001-2015 QUALITY MANAGEMENT SYSTEM, CE, TSE, GOST-R, UKRSEPRO and TÜV Quality Certificates, Bemis maintains its leadership in the industry with its trained and experienced team. Bemis, carrying out planned studies on the way to become a world brand; is advancing its goal with confident steps. It continues to produce its products and continue its after-sales service with the understanding of "Quality is the expression of respect!" Which is the registered motto of Bemis. With its exports, Bemis is advancing with serial and solid steps towards becoming a well-known brand not only in the domestic market but also in the world market. Bemis is Turkey's market leader in the field; manufactures plastic, metal and rubber plug sockets in different standards, in accordance with different power values in accordance with the standard requirements. In addition to industrial plug sockets, Plastic Distribution Panels (Combination Boxes), Plastic Junction Boxes, Plastic Panels, Button and Switch Boxes, Plastic and Metal Cable Reels, Portable Hand Lamps, Safety Transformer Lighting Lamps, Automatic Winding Mechanism Energy Transfer Systems products offers technical solutions to its fields. In addition to the domestic market; Russia, Egypt, Algeria, Iran, Azerbaijan, Portugal, Ukraine, Bulgaria, Romania, Serbia, France, Germany, Poland, Nigeria, Belarus, Kazakhstan, Iraq, Turkmenistan, Uzbekistan, Kyrgyzstan, Tajikistan, Sweden, Mongolia, South Africa, Bemis, which also exports to Kosovo, Tunisia, Jordan, Morocco, Chile, Switzerland, Kuwait, Lebanon, Lithuania, Latvia, Estonia, Norway, India, Spain, Georgia, Macedonia, Bosnia and Herzegovina, Hungary, Saudi Arabia, Qatar, domestic sales. and marketing activities of Bemis Pazarlama Ltd. Sti. through.

BES A ELECTRONIC

ABOUT US

Beş A, one of the leading enterprises engaged in the design and manufacturing in the lighting electronics in Turkey, was founded in 1995. Beş A produce emergency lighting kits, emergency exit luminaires and emergency lighting luminaires. Having completed many innovative projects with its 28 years of knowledge and experience, Beş A responds to the needs of the emergency lighting products of the sector with its wide product range of up to 500 products in nearly 50 product groups. With its expert staff of 70 people, it operates in a 3000 m2 closed area in Istanbul. Beş A always aims to produce new technologies, carries out its mechanical and electronic designs in its own TÜV Rheinland certified R&D laboratory. Our company, which takes a significant part of its power from the principle of "sustainable development" and its employees working in line of this principle, aims to generate value for a bright future; and serves with the vision of being the leader in the regions where we operate with our products and services, and with the mission of making R&D and production in emergency lighting electronics. Our product's quality is registered by international certification bodies such as TSE, TÜV Rheinland and BSI. Our company has also ensured quality management systems with ISO 9001 standards.

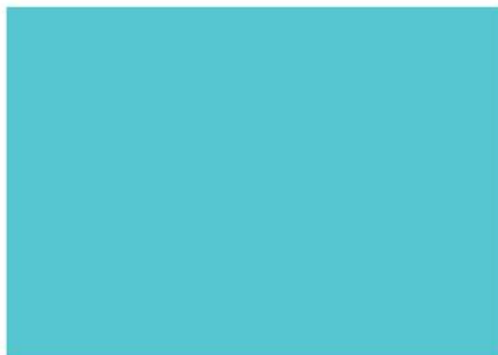

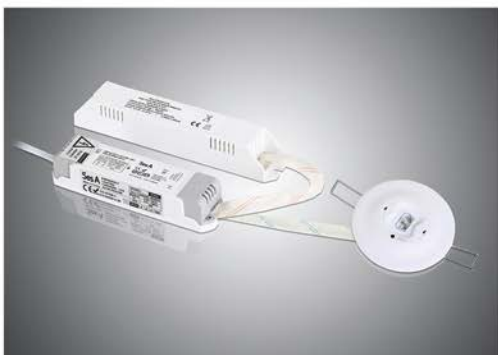

PRODUCTS AND SERVICES

- Emergency Lighting Kits
- Emergency Exit Luminaires
- Emergency Lighting Luminaires
- Emergency Lighting Control Systems
- DALI Emergency Products
- DALI LED Drivers

ABOUT US

Beta Enerji ve Teknoloji A.Ş. is a technology firm operating in the energy sector with its modern facilities covering 63,680 m². Our factory, located in the Adana Hacı Sabancı Organized Industrial Zone, specializes in the production of both oil-type and dry-type transformers, as well as special transformers. As one of Turkey's leading energy brands, we embrace the principle of sustainability and offer solutions tailored to the energy sector.

Our company works with internationally certified quality management systems such as ISO 9001, ISO 14001, and ISO 18001, and has further approvals from CE and TSE certificates. With our customer-focused approach, our mission is to accurately analyze the needs of the energy sector and provide solutions—making us an indispensable business partner. Our core values emphasize freedom, quality, corporate integrity, transparency, and social responsibility.

Beta Enerji offers a wide range of transformer solutions for the energy sector at various power and voltage levels. Our product portfolio includes dry-type transformers, conservatory transformers, hermetic transformers, and special request-based transformers. These products are designed to optimize power efficiency and ensure effective energy transmission. Through continuous innovation and development at our R&D center, we remain committed to delivering leading-edge solutions for the industry.

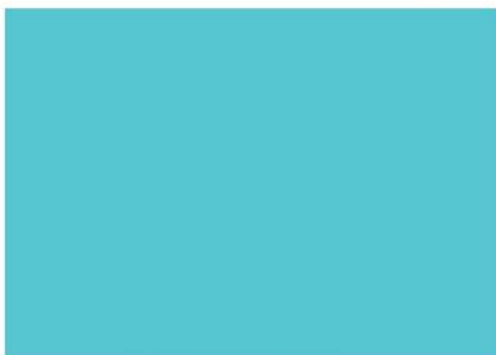

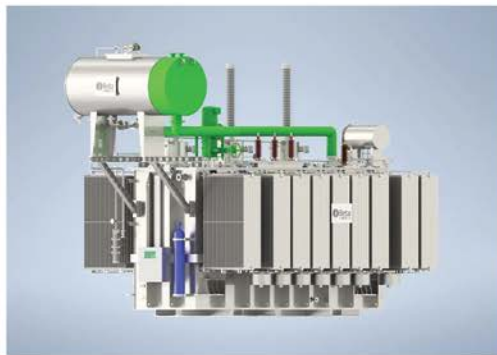

PRODUCTS AND SERVICES

- Dry-Type Transformers
- Hermetic Transformers
- Conservatory Transformers
- Power Transformers
- Special Transformers
- Earthing Transformers
- Shunt Reactors
- Isolation Transformers

ABOUT US

Elektra Elektronik is founded in Istanbul 41 years ago to produce transformer. Today, we enjoy the position of being the leading company of Turkey in low-voltage transformer and reactor industry in terms of production capacity, number of employees and export volume. In addition to the pioneering products in transformer industry, we have been focusing on the production of advanced technology electronics since 2015. Today, we are present in many fields of the industry, both in Turkey and globally, with our transformer, reactor, grid filters, energy quality and power electronics solutions. As our international market share and business volume has consistently grown, we invested and scaled up our production line at our Istanbul-based factory in 2019, doubling up our capacity and reaching a production area of 10 thousand square meter. As a producer of the Turkey's first and single locally developed active harmonic filter, DynamiX, we, as Elektra Elektronik, offer the world advanced technology solutions in the field of energy quality. We are exporting locally-developed transformer and electronics to about 60 countries, primarily China, Spain, Germany, France and New Zealand, on a total of 6 continents including Africa, Middle East and South America. We are a solution partner to many enterprises and offer our European Standard-compliant products with the best price/performance available in the market. Besides Turkey, we have Elektra GmbH company based in Germany and sales offices in China and the USA.

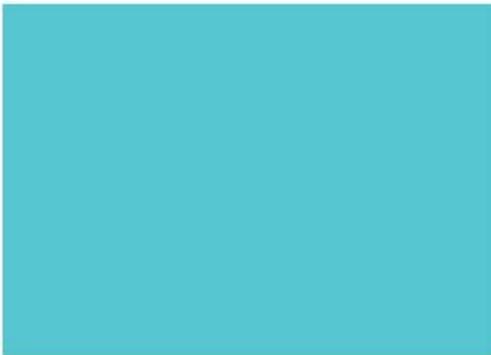

PRODUCTS AND SERVICES

- Low Voltage(LV) Transformers up to 2000 kVA
- LV Harmonic Filter Reactors
- LV Shunt Reactors
- LV Line Reactors
- LV Sinusoidal Filters
- Discharge Reactors
- MV Shunt Reactors
- MV Current Limiting Reactors
- MV Harmonic Filter Reactors
- Active Harmonic Filter
- Passive Filter
- Static Var Generator (SVG)
- Thyristor Module and Capacitors

EMEK KABLO

ABOUT US

Since 1984, Emek Kablo has played a pioneering role in the production of low-current cables, basing its approach on quality, reliability, and customer satisfaction.

Our journey, which began in Istanbul Küçükköy with the initiative of Mehmet Uçar and Zeynelabidin Sarıbaloglu, has grown with a strong vision, becoming a preferred brand all around Turkey and the world. From our first production of audio and video cables, we have continuously increased our product variety. With the machines we produce ourselves, we continue to meet all our customers' needs in the most accurate way with faster and more innovative production solutions.

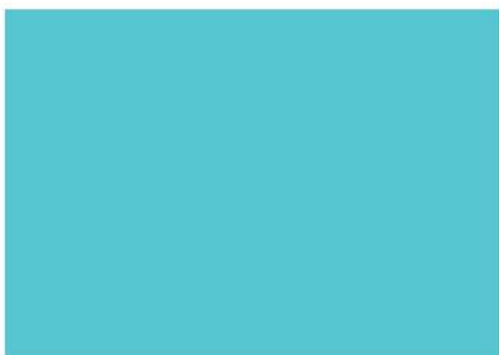

PRODUCTS AND SERVICES

- Low Voltage Cables
- Signal and Control Cables
- Audio and Video Cables
- Data Cables

ABOUT US

ESCO Elektrik excels in production, sales and marketing of equipments required in the installation of lightning protection and earthing systems.

Esco's purpose aligns with providing added value by offering the utmost pre- and post-sales services to our customers for a successful long term cooperation.

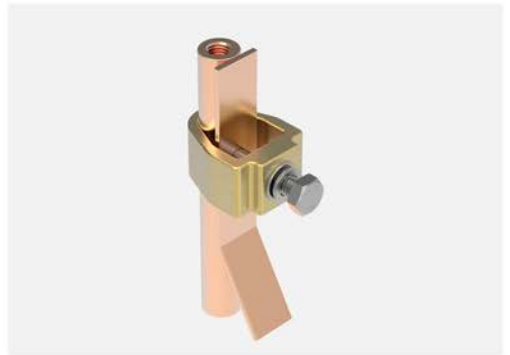

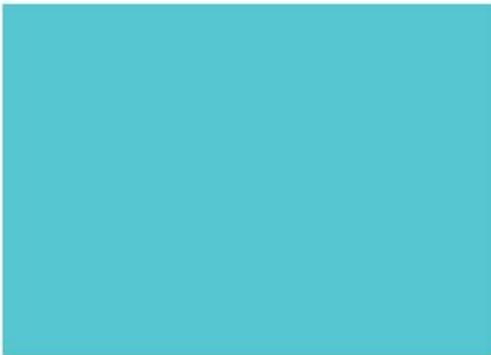

We aim to develop products with maximum benefit, working in a reliable and solution-oriented fashion.

We acknowledge that ensuring a long term success depends on high quality service through our employees.

PRODUCTS AND SERVICES

- Copper Earthing Tapes & Rods
- Copper Busbars
- Galvanised Earthing Tapes & Rods
- Flexible Tinned Copper Braids
- Copper Earthing Clamps
- Galvanized Earthing Clamps
- Brass Earthing Clamps
- Exothermic Welding Products
- Equipotential bonding bars
- Lightning Protection Materials
- Steel Flexible Conduits
- Plastic Conduits
- Pvc Cable Trunking Box
- Cable Trays

ABOUT US

Euromek is a manufacturer of high-quality instrument transformers, offering reliable and precise solutions for energy measurement and monitoring. With years of expertise in electrical engineering, we design and produce transformers that meet international standards and customer expectations.

Our product range includes current and voltage transformers for medium, and high-voltage applications, ensuring accuracy, durability, and safety. We utilize advanced technology and rigorous quality control processes to guarantee optimal performance in various industries, including power distribution, renewable energy, and industrial automation.

At Euromek, customer satisfaction is our priority. We provide tailored solutions to meet specific project requirements and offer technical support to ensure seamless integration of our products. Our commitment to innovation and continuous improvement drives us to develop efficient and cost-effective measuring transformers.

With a focus on reliability and compliance with global standards, Euromek has built a strong reputation in the industry. Whether for utility companies, industrial facilities, or infrastructure projects, our transformers deliver precision and efficiency in energy measurement.

Choose Euromek for cutting-edge technology, exceptional quality, and a dedicated team that ensures the best solutions for your energy measurement needs.

PRODUCTS AND SERVICES

- High voltage oil type current transformers
- High voltage oil type capacitive voltage transformers

ABOUT US

The world we live in is undergoing rapid changes thanks to the fertility of scientific revolutions. As a result of the removal of customs barriers with globalization, the marketing conditions of products and services appear as an important factor in competition conditions.

This situation expresses the interest between producers and customers. This interest makes it necessary for the manufacturers to reflect the demands of the customers on the product, and for the customers to convey their needs for the product to the manufacturer completely.

Within this perspective, "Quality Management System" has an important position as a discipline that provides support to the phenomena such as manufacturability, ease of maintenance-repair and interchangeability, which ensures the efficiency and economy of the product offered especially to electricity industry.

İLK-eL Pano continues its panel production, which started in 1974 in the 4th Levent district of Istanbul, in a 3000 m2 closed area in Seyrantepe. With its half century of experience in panel production, it serves its customers by producing all kinds of panels according to their needs for business centers, industrial facilities, hotels, industrial facilities, sports complexes, construction sites. Our company, which works mostly on orders besides the standard productions, is capable of responding to the needs of its customers at any time with the modular system applied in the panels, the construction structure that provides ease of assembly, the low cost and high quality brought by advanced technology.

PRODUCTS AND SERVICES

Our company, which has increased its capacity by renovating its facilities, continues to offer sheet metal cable channels, underfloor channels and accessories for about 10 years as well as meeting all kinds of panel needs of its customers. The mass production technique we have, the continuity of quality, the richness of accessories and the variety of coating methods we can apply have made it possible to carry out all kinds of applications easily.

The meticulous efforts for quality and details in the production processes have ensured that "İLK-eL" products are appreciated both at home and abroad for their quality and to reach their current position.

Our company, which offers reasonable prices to its customers' needs in a timely manner and has the philosophy of maintaining its quality without compromising and the ability to quickly adapt to changing conditions, aims to develop continuously thanks to the technologies it follows closely and its expert staff. İLK-eL Pano has also adopted the principle of supporting the R&D studies of other companies operating in the sector.

ABOUT US

Kirac METAL is a part of the KIRAC GROUP, a Turkish company with 670 employees and \$140 million in annual sales (USD). We export to over 50 countries worldwide. We are a leading manufacturer of:

1. Solar steel mounting structures (including ground and roof solutions, and carports in steel, aluminium, and Magnelis),
2. Cable management systems (including cable trays, cable ladders, and support systems),
3. Low-voltage panels (switchboards for both indoor and outdoor applications), and
4. Safety road barriers.

PRODUCTS AND SERVICES

We are a leading manufacturer of:

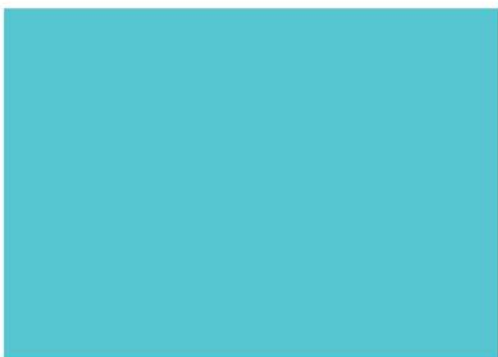

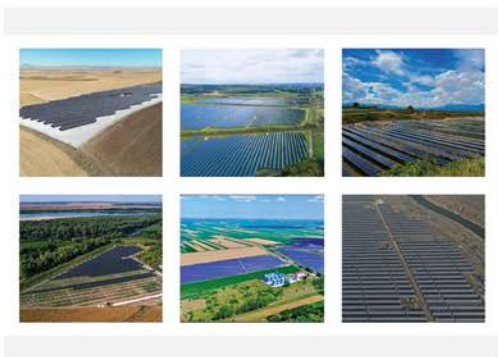

1. Solar steel mounting structures (including ground and roof solutions, and carports in steel, aluminium, and Magnelis),
2. Cable management systems (including cable trays, cable ladders, and support systems),
3. Low-voltage panels (switchboards for both indoor and outdoor applications), and
4. Safety road barriers.

Our monthly production capacity is 6,000 tons (approximately 100 MW per month), and our steel (PG, HDG, Magnelis) and aluminium structures are CE marked. Notably, we have been supplying our cable trays to renowned clients such as Shell (304-316 SS), EXXON (HDG and Aluminium), MHI, Japan Gas Corporation, and ABB.

ABOUT US

Light34 designs and manufactures outdoor lighting products that are used in outdoor spaces around the world. Our story started in 2014 in Istanbul, Turkey, but our aim has always been to go beyond our borders and spread energy around the world.

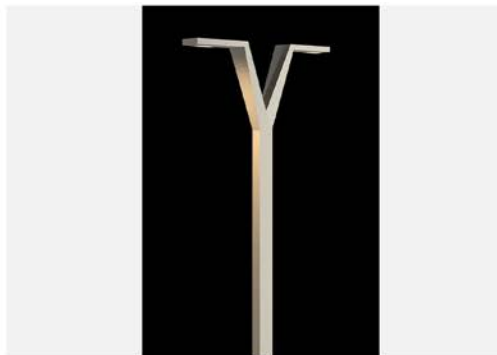

From 2014 until now, we have been developing with our customers to create an exciting illuminated environment. We have already completed many successful projects, but the most important part of the completed projects is knowing that we have engaged extraordinary people all over the World and brought a new spark. With a wide range of applications, from parks to public street lighting, our creative and solutions-based designs will continue to provide leading solutions for generations to come. Our inspiration combines material with aesthetics, creating functional outdoor lighting products with materials that reflect and reveal quality.

Our company manufactures outdoor lighting products and has exported project-based exports to approximately 41 countries until today. We have product range that will provide all the requirements of an outdoor lighting project such as durable outdoor lighting poles in modern and classical style, garden and landscape lighting products (bollard lighting, floodlight, ground recessed luminaires, wallwasher). We are able to custom made design and production in line with the needs of customers.

PRODUCTS AND SERVICES

- Urban Light
- Bollard Light
- Lighting Pole
- Wall Light
- Street Light
- Lamp Post
- Pathway Light
- Wooden Bollard Light
- Wooden Sconce
- Wooden Garden Light
- Inground Light
- Floodlight
- Wallwasher Light
- Ceiling Mounted Light
- Highbay Light

PAMİR LIGHTING

ABOUT US

PAMİR ELEKTRİK is located in the industrial city of KONYA, in the heart of Anatolia. Created in 1974, it was manufacturing electrical equipment and since 1990, it shifted production towards the lighting sector and became a specialist in this field.

Company has been providing professional solutions for architectural and industrial lighting with the demands from our customers.

We do use the highest possible quality components (Osram, Tridonic, Lumileds etc.) on our products and provide the shortest delivery terms with competitive prices to our customers.

It ranks today among the most performing Turkish companies in the sector, which offer a large array of products, combining aesthetic, quality and competitive price.

We are able to conceive and offer products which combine both aesthetic and competitiveness.

All products are thought in our R&D department, by means of the latest soft wares.

Every order gets our personal attention and care, we have been in the business for nearly 40 years. Repeated orders are the best testimony for our quality and seriousness.

PRODUCTS AND SERVICES

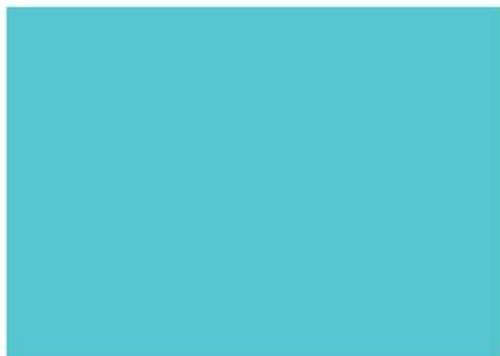

Range of products:

- LED lighting fixtures for offices and shopping places,
- IP67 LED Floodlights & High bay lights,
- IP65 LED High bay lighting fixtures,
- IP65 LED Waterproof lighting fixtures,
- IP65 LED ExProof lighting fixtures,
- Wall washers
- Downlights, track lights,
- Glop lamps,
- Motion sensor & lamps.

TD ELEKTRONICS

ABOUT US

TD Elektronik is a prominent leader in providing high-quality semi-final components for the LED lighting industry. With a strong emphasis on innovation and quality, the company offers tailored solutions to meet the dynamic needs of the market. Equipped with advanced production capabilities, including three in-house SMT lines, TD Elektronik specializes in producing high-performance LED modules. Additionally, the company manufactures precision-engineered LED optics under the trusted Limbus brand.

The in-house R&D team plays a critical role in the company's success, creating customized PCB designs and optics that address the specific needs of clients. TD Elektronik ensures that every product meets the highest industry standards for quality and efficiency.

As a strategic distributor and solutions provider, TD Elektronik partners with leading brands such as Nichia, Lumileds, Lifud, Ledvance, and Philips. With its extensive product portfolio and robust distribution network, the company offers a wide range of lighting solutions for various applications.

Driven by a commitment to excellence, TD Elektronik continues to lead the LED lighting industry, providing innovative, reliable, and high-performance products to customers worldwide.

TURKUAZ KABLO

ABOUT US

Turkuaz Cable Inc. is a leading communication cable manufacturer with over 25 years of experience, specializing in telecommunication, transportation, renewable energy, oil & gas, and defense industries. Based in Gebze, Turkey, the company operates a 30,000 m2 facility, producing copper communication cables, fiber optic cables, and data/LAN cables for global markets.

Committed to quality and customer satisfaction, Turkuaz Cable sources premium raw materials and rigorously tests products at every production stage. The company adheres to ISO 9001:2015 Quality Assurance and ISO 14001:2015 Environmental Management standards, ensuring compliance with leading telecom operators, railways, and highways.

A fast supply system enables quick delivery, with critical products kept in stock for urgent orders. Customer satisfaction extends to both pre-sales and after-sales services, backed by a quality assurance system to minimize errors.

Turkuaz Cable values its employees, implementing cross-training programs to enhance efficiency and flexibility. The company continually invests in technology and innovation, ensuring high-quality products and services. With a young, dynamic, and dedicated team, Turkuaz Cable remains committed to excellence and customer satisfaction worldwide.
